

Attendance: Everyone is here

- Going over current bugs and work done
  - Clicking resume on help page restarts from round intro page, rather than resuming round from where it was when game was paused.
  - Fixed the flow of the game with the bonus round
    - Added bonus round intro page
    - Now we go from main game -> round stats -> bonus intro -> bonus -> round intro
  - Show feedback when user gets wrong answer or runs out of time
  - Fixed bug where we didn't change the difficulty of questions when we restarted game

Sammy: Fixes for question generation, show correct answer when you get wrong answer/run out of time

Thatcher: Redesigned game over page, fixed bugs with bonus round

Mohamed: Added feedback on question timeout. Fixed bugs with game flow and mute button

Edgar: Working on front end of bonus round, fixed bonus points not saving to score

Richard: Final implementation for JSON including scoreboard for results page and total score in globalstate JSON

Christine: Added animated player and opponent to main game and opponent speech bubble and text for the different health bars. Also added same animated features to practice round.
